Client Agreement

Damex Digital Limited

Damex Digital Limited

Terms & Conditions

These terms and conditions apply between Damex Digital Limited and you, whether you are an individual or trading as a legal entity.

The Company

1. Damex Digital Limited (referred to as the “Company”, “Damex”, “us”, “we”, “our” or “ourselves”) is incorporated in Malta with registered number C110325 and registered office at MK Business Centre 115A Floor 2, Triq Il-Wied, Birkirkara, Malta BKR 9022. This agreement sets out the terms on which we will conduct business with you. It is essential that you read and understand these Terms and Conditions (“T&Cs”) prior to applying for our services. Your use of our services will confirm your acceptance of the terms. Damex does not provide advice on the legal implications of accepting this agreement.

Services

Execution-Only

2. By opting to use our execution-only services you will be deemed to be trading on an execution-only basis. Please note that unlike investing in financial instruments, when investing or dealing in Digital Assets there are no rules or protections. You will therefore not benefit from the protections of the rules relating to suitability, which would otherwise require Damex to ensure that a product is suitable for you when taking into account your financial situation and your transaction objectives. We will accept no responsibility for advising you as to the merits of any transaction. We do not accept responsibility on a continuing basis for advising on the composition of your account.
3. If we agree to provide our execution-only service, we will not provide you with advice but will only act upon and effect your instructions as and when such instructions are received from time to time. You will be relying on your own judgement. In this respect, should we comment or provide information in relation to a Digital Asset or a transaction this does not itself amount to advice on the merits of a transaction in the Digital Asset, investment advice or the legal or tax status or any consequences that may flow from the event.

Fiat and Digital Assets

4. We shall not execute any transaction for you unless you have paid us (or third party whom we may direct on our account) a sufficient amount of fiat or Digital Asset to cover any transaction(s), our fees, charges and/or costs which may be incurred as a result of services conducted on your behalf and as contained in your Onboarding Form detailing the relevant fees, charges and/or costs associated with your Damex Account.
5. The fiat or Digital Assets transferred to us for the intention of being funds arising from or intended for custodianship or execution-only transactions are accepted by us exclusively in the course of providing our services. Depending on whether you are engaging us as a broker or dealer, fiat held by us may be pooled in a separate client account that is used by us only for the purpose of holding client funds.
6. When assets are deposited into a designated client account, we will not use your fiat for our general business purposes. It will not be used for any purposes other than as part of a payment and liability in respect of conducting services on your instructions or on your behalf as directed.
7. Any sums due to you on any sale or another transaction in relation to a Digital Asset shall be held as client money unless withdrawn at your request.
8. You may withdraw any surplus fiat provided your account has a minimum amount of not less than the amount we may specify from time to time or this agreement has been terminated and we are satisfied that no further liabilities are to be incurred by us or any third party acting under our direction under this agreement. Withdrawal shall be by BACS or such other method as we shall in our discretion set out. We may make enquiries with regard to withdrawals and may refuse to make them where we are not satisfied that such withdrawals are in accordance with the law.
9. Should you wish to withdraw fiat in excess of any sums held, you may give us instructions to sell specific Digital Assets.
10. No interest shall be paid on fiat moneys held on your behalf.
11. We have the right to retain all or any of your fiat or Digital Assets in the event of unpaid fees, charges or other sums owed to us or any third party in connection with providing you our services in accordance with this agreement. Such sums include, but are not limited to,

those defined and calculated in accordance with the Fee Schedule as set out in your Onboarding Form. We shall be entitled to sell any Assets or a sufficient quantity of them to set-off any liability you owe to us or any third party in connection with our services, after we have given you 5 business days' written notice of non-payment of any amount due and if payment has not been made in full by the end of such period. A "business day" means any day where banks in Malta are open for business and excludes public holidays.

Digital Assets

12. We will provide general broker/dealing services in any of the following Digital Assets including:

- a. **Digital or Virtual currencies** - meaning a digital representation of value that can be digitally traded and functions as (1) a medium of exchange; and/or (2) a unit of account; and/or (3) a store of value, but does not have legal tender status (i.e., when tendered to a creditor, is a valid and legal offer of payment) in any jurisdiction. It is not issued nor guaranteed by any jurisdiction, and fulfils the above functions only by agreement within the community of users of the virtual currency. Virtual currency is distinguished from fiat currency;
- b. **Tokens** - meaning digital utility tokens that are issued using Distributed Ledger Technologies which provide users with access to a product or service though do not allow or enable users to own any equity in the product of the issuer or any issuing party or any equity in the service provider, its subsidiary or affiliates.

(together to be referred to as "Digital Assets")

13. Please note that Digital Assets explicitly do not include any advisory or dealing services in investments including (a) shares or equity in companies or other legal entities; (b) debt instruments; (c) unit trusts, mutual funds and other collective investment schemes; (d) warrants to subscribe for investments under (a) and (b); (e) depositary receipts or other types of instruments relating to investments under (a), (b) and (c); (f) futures and options; (g) securitised derivatives; (h) hedge funds; (i) contracts for difference.

14. The Company does not provide advice or assistance in relation to Digital Assets or Tokens that represent or have characteristics of financial instruments, transferable securities or collective investment schemes. Therefore Damex is not authorised nor does it intend to

provide any services under the Financial Services Act 2019 ("the FSA") in relation to issuing electronic money, providing payment services concerning a payment transaction as defined in paragraph 15, part 4, schedule 2 of the FSA, providing a scheme as a collective investment scheme under the FSA or an offering under the Prospectus Regulation (EU 2017/1129).

Commencement

15. This agreement will commence on the date that it is signed by the client and has been accepted by Damex subject to all compliance documentation provided. Please note that the Company has the right to withhold services subject to required documentation being provided by you in respect of its due diligence processes.

Communication

16. This agreement is in English and all future communications will also be in English. We may, where you have opted to receive it, communicate with you via email or other electronic media in relation to matters arising under this agreement.

Identified Principal

17. You alone will be treated as our client. For a body corporate, we shall treat the body corporate as the client and accept instructions from the directors, unless we have a third party power of attorney where we will treat the attorney as our client.

Digital Asset Custodian

18. We are prepared to act as Digital Asset Custodian subject to the following for the provision of services in relation to holding, transacting and storing the Digital Assets in relation to the transactions that we undertake for you under this agreement ("Custodian"). Should we no longer choose to act on your behalf as custodian of digital assets we may enter into an agreement with other legal entities to act as a Digital Asset custodian and you will thereafter have a legally binding agreement with any future possible custodian. You will be notified prior to the Company outsourcing any aspects of its custodianship services. Should you, following the notification, not wish to continue with our services, you are entitled to terminate the agreement in accordance with the termination provisions of these terms.

19. By entering into this agreement with us you appoint the Company as your primary custodian with the authority to provide settlement and safe custody associated services to you pursuant to this agreement. The terms on which these services will be provided are summarised below and may be amended by us from time to time, by providing notice in writing. You agree that we have the authority to transfer fiat or Digital Assets from your account to meet your settlement or other obligations to the Company. We will not enter into any agreement with custodians without first notifying you with written notice.
20. The Company will provide settlement and safe custody associated services to you pursuant to this agreement. The terms on which these services will be provided are summarised below and may be amended by the Custodian from time to time, by providing notice in writing.
21. We retain responsibility for compliance with regulatory requirements, if any, regarding our own operations and the supervision of your account. In particular, we remain responsible for approving the opening of accounts, money laundering compliance and for our ongoing relationship with you. Should Damex not be acting as Custodian, the Custodian does not, and is not obliged to, give advice or offer any opinion regarding the suitability of any transaction or order. You should direct all enquiries regarding your account to us. Other appointed Custodians will not accept instructions from you directly.

Your Investments

22. You will always remain the beneficial owner of your Digital Assets held with us. However, their legal title will likely be held under the name of our nominee account or that of any of Damex's appointed Custodians as may be appointed. We will not lend Digital Assets belonging to you and held by us, or on our behalf, to any third party nor shall we borrow on your behalf against the security of those Digital Assets unless you have expressly agreed this with us.

Execution and Settlement

23. Damex or another appointed Custodian will provide settlement, safe custody, nominee and associated services.
24. You confirm that: (a) we have your authority to engage Custodians and third parties to provide settlement, safe custody, nominee and associated services for you; (b) we have

your authority to give instructions to a Custodian (should the Custodian not be Damex) on your behalf; and (c) you agree to be bound by the obligations to the said Custodian set out below.

Custody of Your Digital Assets

25. Acceptance of these terms provides authority for Damex or any appointed Custodian under the terms of this agreement to hold your Digital Assets in safe custody, to transfer Digital Assets from your account with us to meet trades effected for you, to accept offers, or carry out any other actions covered by this agreement.
26. We may hold Digital Assets for you using: (i) our Digital Asset custody infrastructure, (ii) on hardware physical wallets on a bespoke basis, only if agreed with us in advance in writing ("air-gapped storage"), in our premises or at other secure physical locations managed by the Company; or (iii) temporarily on Digital Asset exchange accounts in order to allow for more efficient trade execution and also should we consider that this may be appropriate given any potential security threats. Your Digital Assets may be held in air-gapped storage or within our Digital Asset custody infrastructure unless you agree with us, in writing, that Digital Assets will be held by us on Digital Asset exchange accounts. This may be at the option of the client, for example, where a Digital Asset is not supported by our custody infrastructure services or where the client wishes to have Digital Assets on an exchange account ready for higher frequency trading activity or liquidity concerns.
27. You confirm that by agreeing to these terms you agree to the liabilities to the extent set out in clauses 82 to 87 in the event that any trade or transfer of your Digital Assets does not complete, in the event that Digital Assets are stolen from Damex's premises, exchange accounts or air-gapped storage, or in the event that there are any faults, bugs or vulnerabilities with hardware and/or software of the custody solutions that are utilised by Damex. Given the nascent nature of some Distributed Ledger Technologies, technical difficulties may be experienced in transferring Digital Assets. Whilst Damex will endeavour to keep your Digital Assets safe and mitigate security risks, given the nascent nature of some Distributed Ledger Technologies, Damex may also become susceptible to technical attacks, malware and/or hacks. Should there be any problems in transferring your Digital Assets or should any of your Digital Assets be stolen, Damex will endeavour to provide you with reasonable disclosure upon discovering any such difficulties subject to Damex's breach processes.

28. We strictly maintain the segregation of your Digital Assets from our own assets and those of other clients, ensuring your assets are protected from our liabilities. However, you acknowledge that Damex and any appointed Custodian may in unforeseen and/or limited circumstances pool your assets with those that it holds on behalf of other clients upon notice.
29. You hereby acknowledge and agree that: (a) Damex may appoint another company in its group of companies to act as nominee or custodian of your Digital Assets; (b) Your Digital Assets may be registered or recorded in the name of a custodian or Damex or an appointed Custodian's name outside of Malta and consequently the Digital Assets may be subject to different settlement, legal and regulatory requirements than those which apply within Malta and there may be different practices for the separate identification of assets; and (c) Damex may pass your Digital Assets to other appropriately regulated brokers, settlement agents and reputable exchanges (whether in Malta or abroad) and you acknowledge that the legal and regulatory regime applying to a foreign broker, settlement agent or reputable exchange may be different from that of Malta and in the event of a default of such a broker or settlement agent, your Digital Assets may be treated differently than if they were held in Malta.
30. In the situation where Damex or its agents may become insolvent, Damex will need to return your Digital Assets into your control. Damex, at its discretion or the discretion of an insolvency practitioner, will arrange the return of your Digital Assets as held in respective portfolio weightings in our custody facilities or liquidated into a single Digital Asset to include but not limited to Bitcoin or Ethereum.
31. If Damex receives notice of a class action or group litigation order that is being proposed or taken concerning your assets, Damex will not be obliged to inform you or act upon that notification.
32. If we agree to provide Custodianship only services we shall implement your instructions on a case-by-case basis. You will be relying solely on your own judgement. In this regard you should bear in mind that if we explain or provide information in respect of a Digital Asset or transaction this does not itself amount to advice on the merits of the transaction in the Digital Asset or tax status or other consequences which may flow from the event.

- (a) We have implemented a robust custody policy to ensure the safekeeping and protection of your Digital Assets. Our custody policy includes the following:
- (b) Segregation of client assets: We strictly segregate your Digital Assets from our own assets and those of other clients. This ensures that your assets are not commingled and are protected from our liabilities.
- (c) Secure storage: We store your Digital Assets in secure, controlled environments, including hardware physical wallets and our Digital Asset custody infrastructure.
- (d) Access controls: We have implemented strict access controls to prevent unauthorised access to your Digital Assets. Only authorised personnel have access to our custody systems.
- (e) Regular monitoring: We continuously monitor our custody systems for signs of unauthorised activity or security breaches.
- (f) Emergency procedures: We have developed emergency procedures to respond to security incidents or system failures.
- (g) Record-keeping: We maintain detailed records of all client transactions and asset holdings.
- (h) Regular audits: We conduct regular internal and external audits to assess the effectiveness of our custody practices and identify potential vulnerabilities.

Your Rights to Information Regarding Your Digital Assets

- 33. We will provide you with regular statements detailing your asset balances, transaction history, and any fees or charges incurred. Additionally, we will inform you of any significant events or changes that may affect your Digital Assets, such as changes in custody arrangements, security breaches, or regulatory updates.
- 34. You have the right to request information about your Digital Asset holdings at any time. We will provide you with detailed information about the types and quantities of Digital Assets held in your account.
- 35. If you have a dispute with us regarding our custody services, you may initiate a dispute resolution process as outlined in our general terms and conditions.
- 36. We will provide you with clear and concise information about our custody services, including:

37. We will promptly notify you of any significant events or changes that may affect your Digital Assets, including:
- (a) Security breaches: If we become aware of any security breaches or unauthorised access to our custody systems, we will notify you immediately.
 - (b) Regulatory changes: We will keep you informed of any changes in applicable laws or regulations that may impact our custody services or your Digital Assets.
 - (c) Custody arrangements: If there are any changes to our custody arrangements, such as the appointment of a new custodian or changes to our custody infrastructure, we will notify you.
 - (d) System failures: If there are any significant system failures or disruptions that may affect your Digital Assets, we will provide you with timely updates.
 - (e) Other material events: We will notify you of any other material events that may impact your rights or interests as a client.

Advanced Protocols and Forks

38. Unless specifically announced by us to you with written notice, on our website or through some other official public statement of Damex, we only accept receipt of particular Digital Assets and do not support acceptance of metacoins, coloured coins, side chains, or other derivative, enhanced, or forked protocols, tokens, or coins which supplement or interact with a Digital Asset supported by Damex (collectively, "Advanced Protocols"). Do not send Damex or expect Damex to receive, request, send, store, or engage in any other type of transaction an Advanced Protocol. Damex is not configured to detect, accept and/or secure Advanced Protocol transactions and Damex assumes absolutely no responsibility whatsoever in respect of Advanced Protocols.

39. Damex does not own or control the underlying software protocols which govern the operation of Digital Assets supported by us. In general, the underlying protocols are open source and anyone can use, copy, modify, and distribute them. By using Damex you acknowledge and agree (i) that Damex is not responsible for operation of the underlying protocols and that Damex makes no guarantee of their functionality, security or availability; and (ii) that the underlying protocols are subject to sudden changes in operating rules (also known as “forks”), and that such forks may materially affect the value, function, and/or even the name of any Digital Asset held by us on your behalf. In the event of a fork, you agree that Damex may temporarily suspend operations (with or without advanced notice to you) and that Damex may, in its sole discretion, decide whether or not to support (or cease supporting) either branch of the forked protocol entirely. You acknowledge and agree that Damex assumes no responsibility whatsoever in respect of an unsupported branch of a forked protocol.

Corporate Actions

Receiving benefits of Digital Assets

40. In the event of any benefit being able to accrue or being derived from holding any Digital Asset, Damex assumes no responsibility whatsoever in respect of claiming and receiving any such benefit on your behalf. We will not be liable for any loss of interest due to any delay outside of our control in deciding to obtain or claim any benefit on your behalf. Damex may, in its sole discretion, decide whether or not to claim or obtain any benefit in any Digital Asset held by us on your behalf.

Notification

41. We will notify you, promptly upon receipt, of any voting actions affecting your Digital Assets which are held by Damex or any appointed Custodian. If the Digital Assets are not held by us, we will instruct an appointed Custodian, on your behalf, to exercise any voting rights or reorganisations provided that we receive your instructions to do so in good time. Whilst Damex undertakes to notify you of all corporate actions relating to your assets, there may be instances where Damex or any appointed Custodian are not advised of a voting action on any protocol and consequently cannot notify you of the terms of the corporate action. In such event, Damex will accept the default option of the action on your behalf and cannot

be held responsible for any loss that you may incur or any other outcome imposed by the company or its registrar.

Instructions

42. We will take instructions on your behalf. We will not accept instructions from any other person. We will not be liable to you in relation to any failure to participate in such voting actions where your instructions are not received in sufficient time. In the event that we fail to receive an instruction from you and provided the necessary funds are available when required, we will use our best judgement at the relevant time and you will be bound by our decisions unless you have given us specific instructions to the contrary.

Instructions

Dealing Instructions via Telephone

43. Instructions received over the telephone will be considered to be received at the time of the termination of telephone calls. Damex may record all telephone conversations as evidence of the instructions given or terms agreed. You accept that such recorded conversations will be conclusive evidence of the verbal instructions received by us. We may, at our discretion, require any instructions given verbally to be confirmed in writing. Where giving instructions to us by telephone our representative may repeat back to you what they understand are your instructions. You will be bound by any such instructions last repeated back to you, if you do not correct them even if they do not reflect your desired instructions they will be deemed to be your instructions and they will be actioned. This applies whether or not you confirm them or remain silent.

Dealing instructions via writing or email

44. Instructions via writing should be sent to Damex Digital Limited at our registered office at MK Business Centre 115A Floor 2, Triq Il-Wied, Birkirkara, Malta BKR 9022. Instructions via email should be sent to legal@damex.io together with, in copy the @damex.io email address of your customer relationship manager.
45. We may accept such instructions, when we believe, in our absolute discretion, that these instructions originated from you. They will be transacted on a "best endeavours" basis and we cannot be held responsible for non-receipt of orders. You accept that we shall not be liable to you for any losses that result from Damex being unaware of the issuance of such

instructions, and you agree to indemnify us for any losses we incur as a result of reliance on such instructions. Instructions will only be deemed to be received at the time they are accepted by Damex either orally or in writing, by one of our advisers. Neither we nor Damex shall be liable to you for any loss or missed opportunity in the event that instruction has been sent by you to us by fax, email or post and such instructions have not been expressly accepted by us. Orders cannot be received on behalf of another person (e.g. husband or wife) unless we have written authorisation.

46. We may at our sole discretion accept or refuse written instructions purporting to be given by you. On request, we will acknowledge in writing the receipt of any such instructions. We may rely on any communication in any form, which purports to have been made, and which we reasonably believe to have been made, by you or on your behalf. You will be bound by any transaction and/or service(s) entered into and/or expenses incurred on your behalf in reliance of such a communication. We reserve the right not to carry out any instructions that we may reasonably suspect to be unlawful.

Withdrawals

47. Should you choose to withdraw your Digital Assets in whole or in part this will incur standard fees and are subject to our Terms on instructions. Withdrawals can, provided that all necessary instructions are in place and taking into account the Company's position (i.e. in times of extreme market demand of our services), be facilitated in 3-5 business days. Withdrawals may be possible on a more urgent basis at our discretion outside of these times at a fee.

Restrictions

48. We reserve the right, at our sole discretion, not to accept a trade, to review and revise your trading limits, seek references, request Digital Assets to be provided by you at any time before and/or after a transaction. This may result in your transaction not being processed immediately and may mean you are unable to deal immediately or whatsoever.

Amendments

49. Any instruction to buy or sell Digital Assets through us forms an irrevocable commitment to you to buy and sell those Digital Assets in accordance with your instructions. Any instructions received by us cannot subsequently be amended and/or revoked by you once

they have been accepted and executed by Damex. Where the dealing instructions submitted were incorrect, you agree to indemnify Damex for any costs or losses incurred by Damex in respect of transactions entered into on your behalf to correct the previous transaction, should Damex decide to accept an instruction to effect such a correction.

Payment Instructions

50. Instructions to transfer Digital Assets to your public wallet address account may be given to us by telephone, e-mail or by post. Transfers will only be made to a digital wallet address where you are able to provide evidence you have ownership of such a wallet (e.g. other transactions which have occurred to that address) which has been notified to us in writing and accepted by us. Third party transfers will not be made or will only be made in limited circumstances as agreed in writing.

Dealing

51. We will endeavour to provide best execution services at our sole discretion. We will normally execute orders in due turn as soon as reasonably practicable after receipt. Unless you tell us otherwise you agree that if we are unable to execute your order in full immediately we may execute our own orders or the orders of other customers whilst seeking to complete the execution of your order. Depending on the protocol of the Digital Asset, our best execution services may be affected by delayed transaction times and difficulties due to delays being experienced on the network.

52. All instructions to Damex must be on either a "limit price" basis or "best price" basis. Where you instruct Damex on a best price basis and the number of units of a Digital Asset to be dealt is larger than the Digital Asset's normal market dealing size, the price obtained may differ from the price indicated to you at the time your instruction to deal was received.

Stop Loss Orders

53. We do not accept instructions for stop loss orders.

Settlement

General

54. You will ensure that all Digital Assets due to us are transferred to our designated public addresses and all documents delivered to us in good order to settle transactions effected

by you or on your behalf, and have done everything necessary to allow settlement by the date confirmed to you at the time of dealing, or as stated in the contract note (whichever is earlier). All cash or assets held by us, or transferred to an appointed Custodian are and will remain free of any lien, charge or encumbrance and all payments due to an appointed Custodian must be made without set-off, counterclaim or deduction.

55. You agree to indemnify us from all fines, taxes and charges that any exchange or third party may impose on us or our nominee as a result of your failure to deliver payment or documents to allow transactions to be settled. You also agree that you are responsible for all of your obligations in respect of tax liabilities or similar penalties that may result from any default in your obligations.

56. All sums due to us in respect of commission and any other charges may be deducted from any Digital Assets which we may hold from time to time on your behalf.

Conflicts of Interest

57. We may have: (a) a material interest in a transaction to be entered into with or for a customer; (b) a relationship that gives, or may give, rise to a conflict of interest relating to the transaction or service concerned; (c) an interest in a transaction that is, or may be, in conflict with the interest of any of the firm's clients; (d) clients with conflicting interests in relation to a transaction; and (e) an arrangement where we receive payments or other benefits for giving business to the firm through which your order is transacted. Details of such payments or benefits are always available on request.

58. We are involved in a wide range of investment advisory and discretionary services and may at times have interests which conflict with those of our clients. We aim to treat our clients fairly, suitably and appropriately. One of the ways in which we seek to achieve these aims is to have regard to the conflicts of interest that may arise through our business activities where such conflicts may involve a material risk of Damex to our clients. We have put in place a policy to identify, avoid and manage potential conflicts of interest and we have set out below a summary of that policy and the key information that is needed by clients to understand the measures we are taking to safeguard the interests of our clients. Our internal policies and procedures are designed to ensure that we identify potential conflicts of interest that arise or may arise between us and our clients and between one

of our clients and another. The circumstances in which such a conflict of interest or potential conflict of interest may arise, include, but are not limited to, where we may:

(a) act on behalf of you and a third party client or investor in the same transaction, and receive and retain commission or other charges from both parties, with the price of the transaction being different from the bid or offer price;

(b) execute a transaction for you in circumstances where we have knowledge of other actual or potential transactions in the relevant instrument;

59. We may implement and maintain a number of procedures and measures for managing conflicts of interest that arise in the course of our business. Such measures include, but are not limited to, the following:

(a) structural separation. Such separation may be physical or otherwise, including but not limited to information barriers, compensation arrangements and or management and supervisory structures;

(b) oversight of contacts between and within businesses whose clients have adverse or competing interests with the clients of other business units;

(c) regulation of personal investment and business activities of our employees by Compliance to prevent conflicts of interest arising with the interests of clients.

(d) require employees to comply with a policy of independence and disregard any of the above factors when advising you.

60. Where these measures are not sufficient to ensure, with reasonable certainty, that risks of damage to the interests of one or more clients will be prevented, we will be required to clearly disclose the general nature and/or sources of the conflicts in interest to the client concerned before undertaking business with or for the client and ask the client for consent. If we believe there is no practicable way of preventing damage to the interests of one or more clients, we may decline to act.

61. Further details of our conflicts of interest policy can be provided on request.

62. Subject to clause 52, you agree that we may provide the relevant services despite any such interest and that we are not required to account to you for any income, gain, profit or benefit or other advantage arising from doing so. We may however at our sole discretion

decide to inform you as to any potential conflicts and any income, gain, profit or other advantage that we may receive should we feel ethically obligated.

Execution-Only

63. Please note that we will not advise you about the merits of a particular transaction when you give the order for that transaction and you confirm that you are not expecting such advice and are dealing on an execution-only basis. If we enter into an execution-only transaction as a result of your instructions we shall have no responsibility to provide any ongoing advice about the investment particularly when Damex is the manager of your Digital Assets.

Risk Warning

64. You accept that the prices and values of Digital Assets can aggressively go down as well as up and you may get back less or none of your Digital Assets. Consequently, Damex cannot accept responsibility for any movements in the value of your assets. Please refer to our Risk Notice document included with these terms, on our website www.damex.io and also from us directly by emailing info@damex.io. Our Risk Notice is updated from time to time for your benefit.

Cancellation Rights

65. You accept that you will not have the right to cancel or withdraw from these transactions. We may be able to reverse or cancel transactions at our sole discretion and such actions may result in fees that will be communicated to you.

Before publishing a research recommendation

66. We, as appointed Custodian or an associated company, may publish research that we have acted upon or used the information on which it is based, provided that we do not reasonably expect any such action to have a material effect on the price of a particular Digital Asset. We may provide on request written and oral information and research recommendations (produced by a person other than us) to facilitate your transactions, using sources believed to be reliable and accurate but which cannot be warranted by us to be accurate and complete. We do not accept liability for any direct or consequential loss arising from the use of any research or recommendation provided in this way. As we do

not undertake corporate finance or proprietary trading, our research is independent and without conflict of interest.

Applicable Laws and Regulations

67. All transactions are subject to the terms and the customs and practices of the exchange on which they are executed. You warrant to us that you are not prohibited from using our services by the laws of the country in which you currently reside or otherwise, and that your dealings will comply with all relevant laws and regulations affecting you. We will not be required to take any action which would, in our opinion, breach any applicable laws or regulations.

Administration

68. All instructions regarding the administration of your account with us, such as notification of change of address or bank details must be made in writing to us.

Third Party Instructions

69. If you wish to authorise another party to give instructions on your behalf, the appropriate details must be included on the third party power of attorney form. We may accept any dealing instruction we believe, in good faith, to be from any third party authorised by you to act on your behalf, whether in writing, by telephone, email or otherwise. We will accept any instruction regarding the administration of your account. Should instruction authority be altered, suspended or revoked you should notify us immediately. You accept that if you fail to do so we shall not be liable for any loss that you may incur.

Aggregation of Orders

70. To obtain a more favourable price for your orders, we or any appointed Custodian may combine them with those of associated companies and persons connected with us, and of some other clients, instead of executing them separately. If we combine your order with others, we will follow our policy on aggregation (which requires us reasonably to consider that it would benefit each customer concerned) although you accept that on occasion, aggregation may work to your disadvantage.

Events Beyond Our Control (Force Majeure)

71. 76. Unless you authorise us otherwise, we will act upon instructions given by any one of you. Unless and until we receive written notice signed by all of you withdrawing or varying this authority, any action taken by us in complying with instructions given under such authority

Where you are trustees of a trust, you warrant that you have been validly appointed and undertake to supply us with copies of any documents now existing (or hereafter executed) limiting, extending or varying the powers of the trustees or amending the objects of the trust. Failure to provide us with such copies shall absolve us from any breach of the terms or objects of the trust.

Liability and Indemnity

82. Damex and any appointed Custodian shall not be liable for any loss arising other than as a result of its own **gross negligence, wilful default, or contravention of regulatory rules**, if any. In any event, we will not be liable for any indirect or consequential loss (including loss of profit). Damex or any appointed Custodian shall have no liability for any market or trading losses you may incur.
83. You undertake to indemnify Damex and any appointed Custodian against any liability (including legal costs) it may incur arising from the provision of its services in relation to your account, any breach by you of the provisions of this agreement or the agreement that we have entered into with either of the aforementioned parties, or any failure to make delivery or payment when due.

84. Advice given by either ourselves or our employees in relation to transactions carried out on your behalf is given in good faith. Damex shall not be liable for any financial loss suffered by you unless this results from ¹ the **gross negligence, fraud, or wilful default** of Damex or from breach by Damex of applicable laws and regulations.
85. We and any appointed Custodian reserve the right to decline to execute any transaction for you, for any reason whatsoever. The value of your assets and the income arising therefrom may decrease as well as increase. We shall not be held liable for any loss incurred by you arising from changes in market conditions or market fluctuations.
86. You acknowledge that our ability to provide the services is dependent on the performance and availability of third-party service providers, including but not limited to liquidity providers, data sources, and technology infrastructure partners. As a result of such dependencies: (a) We shall not be responsible or liable for any loss, damage, or delay arising from any failure, interruption, or outage of services provided by a third party, unless such failure, interruption, or outage is a direct result of our own gross negligence, wilful misconduct, or fraud; and (b) In the event of a material service disruption caused by a third-party provider, we will use commercially reasonable efforts to notify you of the disruption and to restore full service as soon as is reasonably practicable.
87. If any provision of these terms and conditions is or becomes invalid or contravenes any Malta Financial Services Authority rules, the remaining provisions shall not be invalidated.
88. You hereby agree to indemnify and shall keep us indemnified against all suits, actions, proceedings, losses, costs, damages, expenses, and liabilities whatsoever (including legal fees on a full indemnity basis) ("Losses") which we may suffer or incur directly or indirectly as a result of (a) your breach of any term of this Agreement; (b) your negligence, fraud, or wilful misconduct; or (c) your violation of any applicable law or regulation, including Losses suffered by us in enforcing our rights under this Agreement.

Anti-Money Laundering Legislation

94. Damex is obliged under Malta's Prevention of Money Laundering Act (PMLA), the Prevention of Money Laundering and Funding of Terrorism Regulations (PMLFTR), and other applicable Maltese legislation, including the Implementing Procedures issued by the Financial Intelligence Analysis Unit (FIAU), to verify the identity of our customers and carry out customer due diligence measures to combat financial crime, money laundering, and the funding of terrorism. As a result, we will need to make certain enquiries and to obtain information and documentation from you for this purpose. In providing this information, you declare and affirm to us that any assets and/or funds introduced to us by you will be from legitimate and lawful sources and are not, in any way, connected to or derived from unlawful or illegal activities, either in their country of origin or in Malta.

Termination

95. You may terminate this agreement and close your account at any time with immediate effect by providing written notice to us, subject to the settlement of any outstanding transactions and liabilities. We may terminate this agreement for any reason by giving you not less than thirty (30) calendar days' written notice. Our rights to terminate this agreement immediately for cause are exercised at our sole discretion and include but are not limited to circumstances where (a) we are required to do so by legislation, court order or binding regulatory or governmental order; (b) we reasonably suspect your account is being used for or to facilitate a Prohibited Use; or (c) you commit a material breach of these Terms. On giving or receiving notice, you and Damex shall settle outstanding transactions and liabilities as soon as is reasonably practicable and subject thereto, your

account(s) shall be closed. We are under no obligation to explain our reasons for terminating the arrangement. Termination will not affect accrued rights, existing commitments or any contractual provision intended to survive termination and will be without penalty. If, on termination, any sum is, or may become, due from you to us, you shall pay such sum to us immediately, and without demand. On termination of the agreement, we reserve the right to cancel, close out, terminate or reverse any transaction or enter into any other transaction or do anything which has the effect of reducing or eliminating any liability under any contracts, positions or commitments undertaken on your behalf. Where two or more people are contracted with us under a joint agreement a valid notice of termination given by one person will terminate the agreement as regards all persons.

96. Upon being provided with a written notice, you agree to provide us with a public wallet address as soon as is reasonably practicable so that we may return to you the Digital Assets held on your behalf. This wallet address must be able to receive your selected Digital Asset currency for receipt.
97. You agree that we are not obliged to verify the correctness or validity of any public wallet address that you provide to us and subject to returning your digital assets to your specified public wallet address you agree to hold us free from liability in relation to your Digital Assets.
98. Once we are provided with a public wallet address and you choose your selected Digital Asset currency of receipt, we will convert your Digital Assets into that currency as soon as is reasonably practicable.
99. Subject to having received or served a valid written notice, a valid public wallet address and selected Digital Asset currency of receipt, we will endeavour to return any Digital Assets held by ourselves as soon as is reasonably practicable, typically in 3-5 business days.

Invalidity of Terms

100. If any provision or term of the Agreement is declared to be illegal, invalid or unenforceable for any reason (such as breaching GFSC rules or any market rules in which a trade was effected), that term or provision shall be treated as though it had never been part of the agreement and will be ineffective without prejudice to the remainder of the term

or any other term or provision thereof. Any deletion shall be considered not to materially affect the agreement.

Death

101. If you are an individual natural person, in the event that you should pass away, your account will be suspended, we may close any open position which carries a future contingent liability, and no instructions over any account in your name can be accepted until the title of your personal representatives to the account(s) has been granted. For material alterations or changes that adversely affect your rights or obligations, you may be required to explicitly accept the alteration in writing or via the platform prior to continuing to use our services. For all other alterations, you are deemed to have consented to any alteration that may be effected to these terms and conditions if we do not receive notification otherwise from you, in writing, within the time that the changes were notified to you and their coming into effect. No amendment will affect any outstanding order or transaction or any legal rights or obligations which may have already arisen.

Successors and Assigns

104. For the avoidance of doubt, we may in our absolute discretion and in order to ensure continued compliance with any rules or regulations, transfer our rights and obligations hereunder to any assigns and successors legally appointed. Your rights and

obligations hereunder may not be transferred or assigned to any third party without our prior written agreement although they shall subsist and endure to the benefit of your successors.

Taxation

105. Neither we nor any of our employees, officers, directors or agents hold ourselves out as having any tax expertise whatsoever, nor do we accept any liability or responsibility for any kind of loss or damage incurred or suffered by you as a result of or in conjunction with the tax consequences of any transaction. You should always contact a suitably qualified person for taxation advice and receive suitable advice. We may request to receive a copy of your tax advice.
106. You are solely responsible for determining, reporting, and remitting any Taxes applicable to you arising from your use of our Services or from any transactions you conduct, other than VAT correctly charged by us on our Service Fees. This is further detailed in the general "Taxation" section of these Terms. You agree to provide us with accurate, complete, and current information required for the correct assessment and application of VAT on our Service Fees, including, where applicable, your valid VAT registration number and the jurisdiction of your VAT registration, and to promptly update us of any changes to such information.
107. The Government of Malta has signed intergovernmental agreements with various countries, such as those implementing the OECD Common Reporting Standard (CRS) and the Foreign Account Tax Compliance Act (FATCA), with the aim of improving international tax compliance. As a result of these obligations, financial institutions in Malta are required to identify and report details of any customers they believe may be tax residents of other reportable jurisdictions to the Maltese Competent Authority (typically the Commissioner for Revenue). Information on holding Digital Assets may be information we may have to collect and disclose under our obligations under Maltese law and applicable international tax agreements. The information to be reported may include (but is not limited to) the account holder's (and, where relevant, any controlling persons') name, address, date of birth, tax identification number(s), account number, account balance or value at year-end, and the total gross amount of income (such as interest, dividends, and other income) and gross proceeds from the sale or redemption of assets credited to the account. These disclosures are made in accordance with Maltese law, including data protection

legislation such as the General Data Protection Regulation (GDPR) as implemented in Malta. Once the Maltese Competent Authority has your details, they will exchange this information with the relevant tax authority of the reportable jurisdiction(s). As the scope of reportable assets and information can evolve, Damex will collect and retain this information to ensure compliance with current and future obligations, subject to applicable Record Retention requirements under Maltese law. By accepting these T&Cs and using Damex's services, you explicitly agree and authorise Damex, should we be required by Maltese law or applicable intergovernmental agreements, to provide the Maltese Competent Authority with this data and hold Damex harmless from any liability and/or damages in relation to any such legally required disclosure.

108. Damex may withhold sums on account of tax if it deems it necessary to do so or if it is required by law to do so. You agree to provide us with all such information and documentation as is reasonably requested by us to enable Damex to make any such withholdings. Damex shall not offer a tax reclaim service and accordingly you will be responsible for reclaiming any recoverable tax, if any, on your assets.

Value Added Tax (VAT) and Other Taxes on Service Fees

109. All Service Fees and charges quoted by Damex are exclusive of any applicable Value Added Tax ("VAT") or similar taxes, duties, or levies ("Taxes"), unless expressly stated otherwise in our Fee Schedule or during promotional offers. If any such Tax is required by law to be charged on our Services, it will be calculated at the prevailing rate and added to the exclusive amount of the Service Fees, and will be payable by the Account Holder. Your invoice for such Services will clearly itemise and include any applicable VAT.
110. Fees such as the "Onboarding Assessment Fee" and "Annual Subscription Fee" are charged to cover administrative and setup costs, including compliance due diligence and Account setup. These fees are separate services and may be subject to VAT as per applicable Maltese laws.
111. The VAT treatment of services related to Digital Assets (including but not limited to custody services, digital wallet service, and transaction fees for Digital Assets) can vary depending on the nature and classification of the specific Digital Asset and the Service provided. Certain Digital Asset services may be exempt from VAT under applicable law

when the Digital Assets qualify as financial instruments or currency, whereas other Services or Digital Asset types may be taxable. Therefore, the application of VAT to these Services may depend on the nature of the Digital Asset .

112. Damex Digital Limited will determine, in its sole discretion based on applicable law and guidance (including but not limited to the Virtual Financial Assets Act of 2018 under which Damex Digital Limited is a Class 3 VFA Service Provider), the classification of any Digital Asset (e.g., as a payment token, security token, utility token, or otherwise) offered, held, or transacted through our Services. Such classification will govern the regulatory and tax treatment of the Services provided in relation to that Digital Asset. The Account Holder acknowledges and agrees that VAT may or may not be applied to Services depending on this classification.

Internet Facilities & Transferring Digital Assets

113. We may, subject to amendment, include terms in relation to accessing your transaction orders using an online portal.

114. It is your responsibility to have secure access to the internet when transferring Digital Assets to Damex. It is your responsibility to ensure that you securely store the private keys for any Digital Assets which you hold for your own account and you will not rely on Damex's assistance in this regard and you will indemnify Damex for any losses which may be incurred in your transferring of Digital Assets to Damex and you agree to hold Damex not liable for any assistance provided to you with executing transfers from your Digital Asset public key wallet address.

Risk Warning/ Notice in relation to Digital Assets

We at Damex Digital Limited (Damex) are happy and proud to be able to serve the growing and changing industries of digital currencies, virtual currencies and tokenized assets ("Digital Assets"). Ultimately we are committed to setting high standards of governance in managing Digital Assets as one of the world's first few providers of Digital Asset management and wish to provide all of our clients and anyone with whom we engage with with as much education on Digital Assets as possible. As a result we wish to remind you of the risks associated with investing and trading in Digital Assets.

Investing and trading Digital Assets are volatile and the prices can go up and down. Like real goods and products, the price of Digital Assets are volatile and are subject to large swings in value and at any time may lose a majority or all of their value. As such, there is an inherent risk that gains or losses will occur as a result of buying, selling or trading anything on any market. Digital Asset trading also has special risks not generally shared with official nation issued currencies, goods or commodities in a market. Unlike most recognised currencies or commodities and financial instruments, Digital Assets are backed by technology and decentralised systems of trust. Typically with Digital Assets offered by Damex will not have a central bank or authority that can take corrective measures, such as creating or issuing more Digital Assets, in order to protect the Digital Assets value in periods of crises.

Digital Assets may be autonomous or issued by particular legal entities that may be based and domiciled in any jurisdiction in the world. Distributed Ledger Technologies are technology applications and software which by and large share information throughout a number of different jurisdictions and locations using protocols, many of which are open source. As a result such open source protocols are subject to change in their architecture, composition and make-up. As a result, changes may occur and the the underlying protocols are subject to sudden changes in operating rules (also known as “forks”), and that such forks may materially affect the value, function, and/or even the name of any Digital Asset.

In Malta, if a person is carrying on by way of business any activity in storing or transferring value for others using distributed ledger technologies (such as blockchain), this is a regulated activity. Digital Assets are largely unregulated systems and assets in a number of other jurisdictions. However, some jurisdictions ban and impose criminal penalties on the use, creation and/or the legal or beneficial ownership of Digital Assets and individuals should always be alive to the jurisdictions which they may have connections with and how those jurisdictions regulate Digital Assets may involve criminal liabilities, taxation or other penalties.

Digital Assets are susceptible to irrational (or rational) ‘bubbles’ or loss of confidence (usually referred to as ‘FUD’ - Fear, Uncertainty and Doubt), which could collapse demand relative to supply. In particular Digital Asset markets are largely susceptible to consumer sentiment and swings in confidence are particularly volatile. For example, confidence in particular Digital Assets may collapse due to unexpected changes imposed by software developers or others, a change of regulatory position, creation of superior competing alternative Digital Assets, or a deflationary or inflationary spiral. Confidence might collapse because of technical problems such as where Digital Assets are lost or stolen, if hackers or governments are able to affect transactions or compromise and affect the settling and processing of other elements of any particular Digital Asset protocol (for example, a 51% attack). Changes in confidence for any particular Digital Asset are also inherent due to ongoing reputational and public relation events where principals of any particular creator or entity responsible for aspects of any particular Digital Asset may be involved in litigation, fraudulent activity or other reputational questioning.

Our view at Damex is that individuals should look to Digital Assets to complement their existing investment strategies and lifestyle choices on digital mediums. Ultimately acquiring and holding Digital Assets should not simply be done with a view to consider the financial appreciation or depreciation as the sole metric of the use of Digital Assets. Digital Assets by and large are created with a utility and ultimate use for individuals and therefore acquiring and holding Digital Assets is not simply an investment decision; it is a lifestyle choice as to how individuals may wish to carry out their dealings on digital mediums in the expectation of growing adoption of distributed ledger technologies. Individuals should always carefully assess whether their financial situation and risk appetite is suitable for buying, selling or trading Digital Assets. Damex carries out its own risk assessments and may choose to not accept the new business of individuals, or indeed may

choose to discontinue servicing existing clients, whose financial position is not one that may accommodate tolerance for the highly risky nature of trading or holding Digital Assets.

Individuals should be aware of the risks associated with any market maker, platforms or any other process whereby individuals are purchasing Digital Assets using fiat currencies. These may include but are not limited to the risks of disclosing personal information such as identity and bank account information and considering that this information may be compromised. Individuals may also wish to consider the reputational risks associated with using any particular provider for facilitating the purchasing of Digital Assets from fiat as such providers may be involved in 'mixers' whereby the true ownership and transaction history of any given Digital Asset wallet is obfuscated by processing payments through a network of wallet addresses. Similarly individuals should consider the risks associated with the technical elements of owning Digital Asset wallets and also the risks associated in holding any Digital Assets in a 'hot wallet' (i.e. on a device connected to the internet) and the risks that they may be susceptible to hacks. Clients should be reminded that whilst Damex may recommend various exchanges, Damex is not responsible for the actions of these exchanges and clients should note that these exchanges frequently may experience problems in issuing Digital Assets or issuing fiat in exchange for Digital Assets due to technical issues, regulatory changes and/or decisions, market liquidity and extreme moments of market demand. Please note that given the somewhat experimental nature of some Digital Assets and affiliated technologies, liquidity on certain exchanges may be experienced during moments of high demand.

Ultimately we are committed to safety, security and transparency. We are excited and privileged to be servicing the Digital Asset management space at such an early stage in its development and we are committed to provide clients with the best service, support and education but we cannot always promise perfection during moments of extraordinary high demand. We will continue to update all our clients of any significant changes to risks by updating this page from time to time and we will also endeavour to also include updates on our website or other social media pages.
